Personas

Persona prompts are used to train the AI to act like a certain person - whether that be you, a celebrity, or a generic but qualified individual.

How to Train AI to Write Like You

Prompt #1

Here is a recent article I've written: *[insert document or URL]*

Analyze my tone, how I form sentences and paragraphs, the level of detail I use in explanations, the amount of humor I use, how often I ask the reader questions, the readability level I use, the vocabulary I use, and the level of emotion I convey in my writing.

Give me a 200 word summary of what you've learned.

Prompt #2

Based on the writing style analyzed from the provided article, create content titled *[insert title]* at *[word count]* words. Ensure that the new content strictly adheres to the author's writing style in terms of tone, structure, and approach as identified in the analysis.

Personal Experience

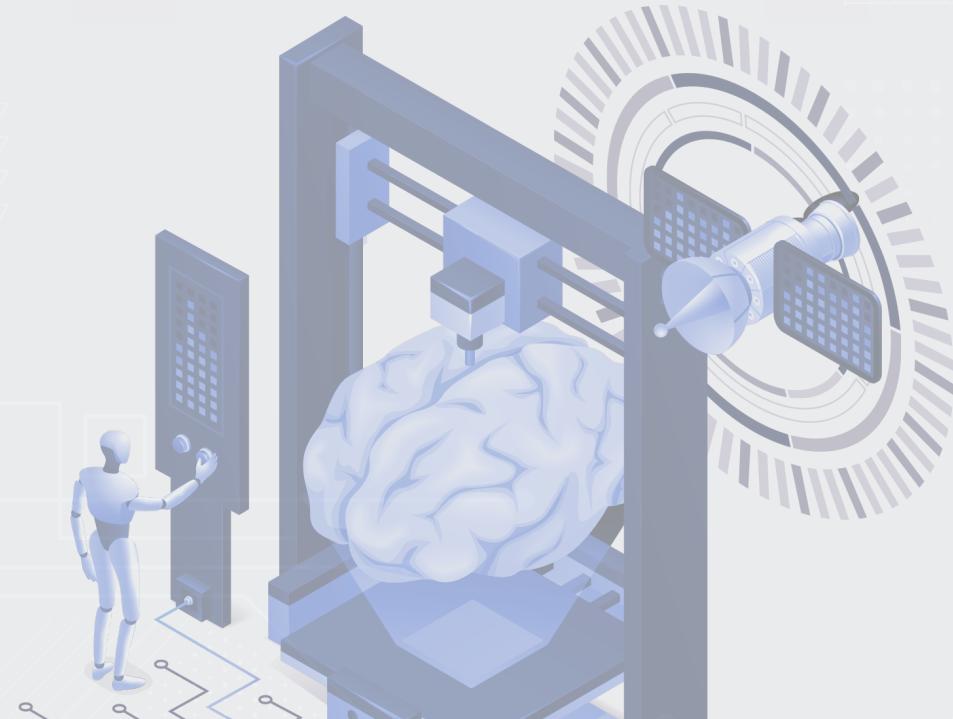

Train the AI to use your experience and opinions in the content.

Prompt

Here's my about page: *[insert about page]*. Learn about my experience and stories that qualify me as an author for the content we'll write.

Also, here's a personal opinion that will shape how you write your content: *[insert personal opinion]*

Create content titled *[insert title]* at *[word count]* words with some of this personal experience and opinion lightly sprinkled in. The integration should be subtle at a level of *[1-10]* out of 10.

Perplexity

Prevent the AI from using unnatural words that humans don't often use.

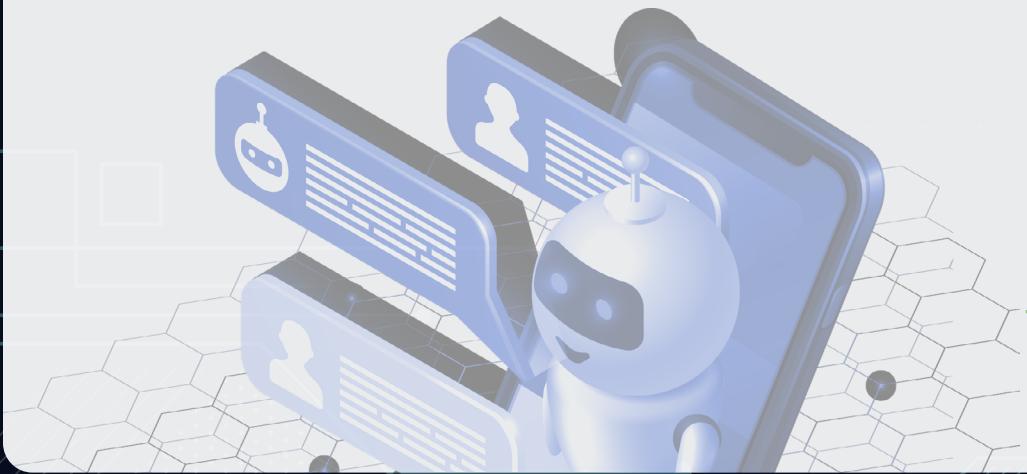

Prompt

Don't always use the most natural words.

Use the following words fewer than 3 times on this page: unique, ensure, utmost.

Before outputting the content, review it for the following words and rewrite those sentences with appropriate alternatives: meticulous, meticulously, navigating, complexities, realm, bespoke, tailored, towards, underpins, ever-changing, ever-evolving, the world of, not only, seeking more than just, designed to enhance, it's not merely, our suite, it is advisable, daunting, in the heart of, when it comes to, in the realm of, amongst unlock the secrets, unveil the secrets, and robust.

Please stick to the above when creating content titled *[insert title]* at *[word count]* words.

Burstiness

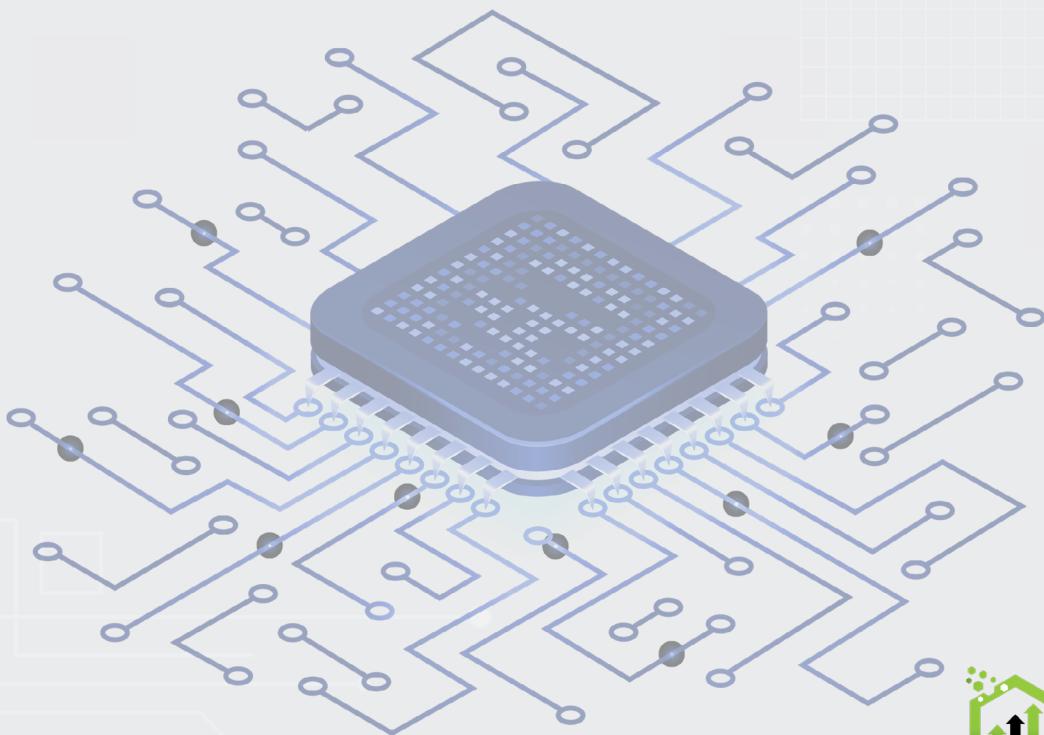

Ensure that sentence and paragraph lengths are varied, as is seen in natural human writing.

Prompt

Ensure heterogeneous paragraphs.

Ensure heterogeneous sentence lengths.
And stick to primarily short, straightforward sentences.

Please stick to the above when creating content titled *[insert title]* at *[word count]* words.

Fact Insertion

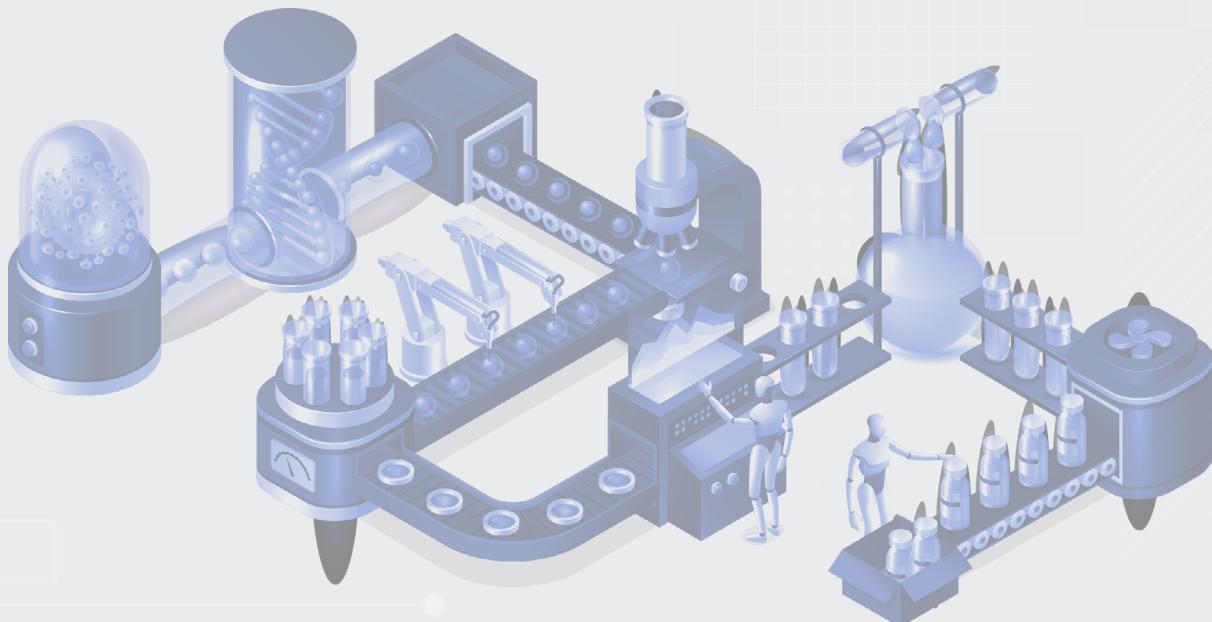

Ensure that the AI uses certain facts when producing your content.

Prompt

Fact #1: *[insert fact]*

Fact #2: *[insert fact]*

Please use these facts when creating content titled *[insert title]* at *[word count]* words.

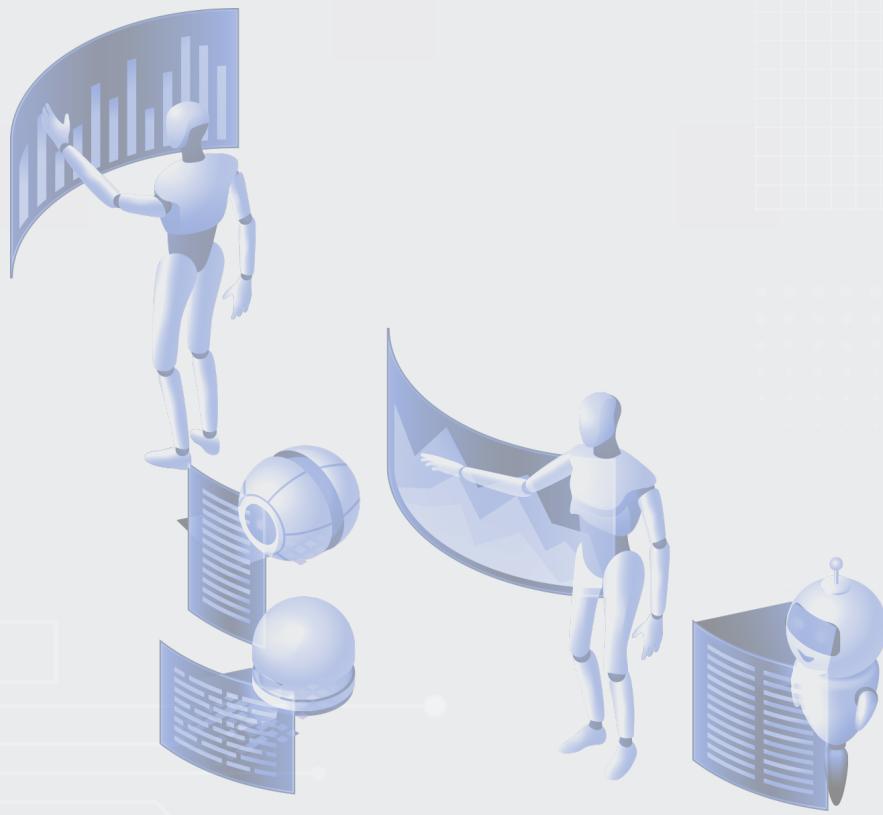

Unfluffing

Prevent the AI from producing unuseful fluff content that doesn't add to the value of the article.

Prompt

Do not include any fluff when producing content. Each sentence should provide value to the overall goal of the content piece. Strictly follow this guideline.

Please stick to the above when creating content titled *[insert title]* at *[word count]* words.

Flavor

Humans have fun when they write, and there's higher engagement with human content. Robots don't... but they can with this prompt.

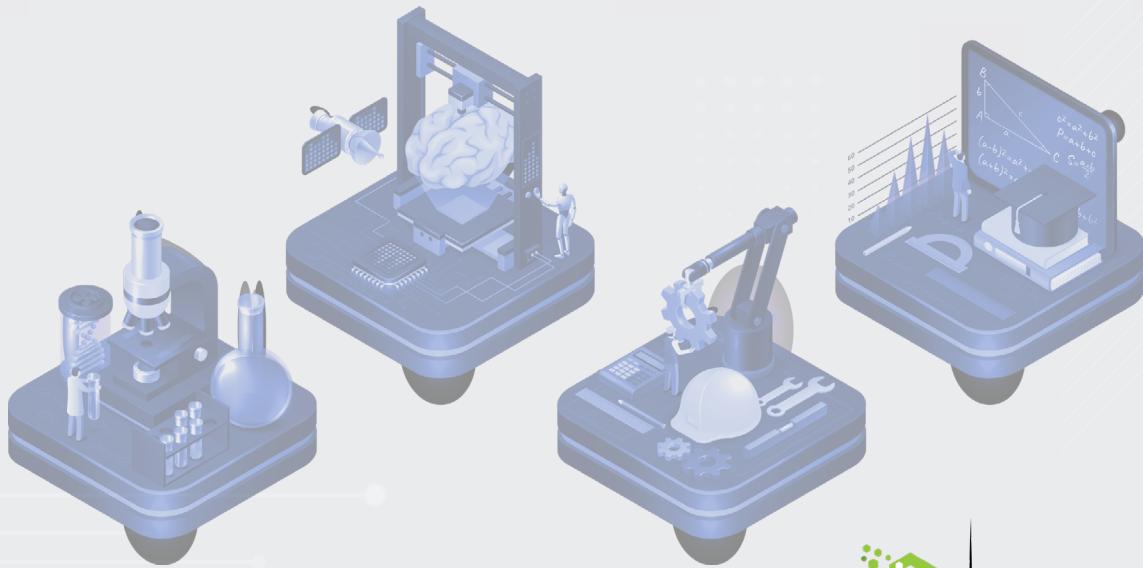

Prompt

Engagement is the highest priority.

Be conversational, empathetic, and occasionally humorous.

Use idioms, metaphors, anecdotes and natural dialogue.

Please stick to the above when creating content titled *[insert title]* at *[word count]* words.

Target Audience

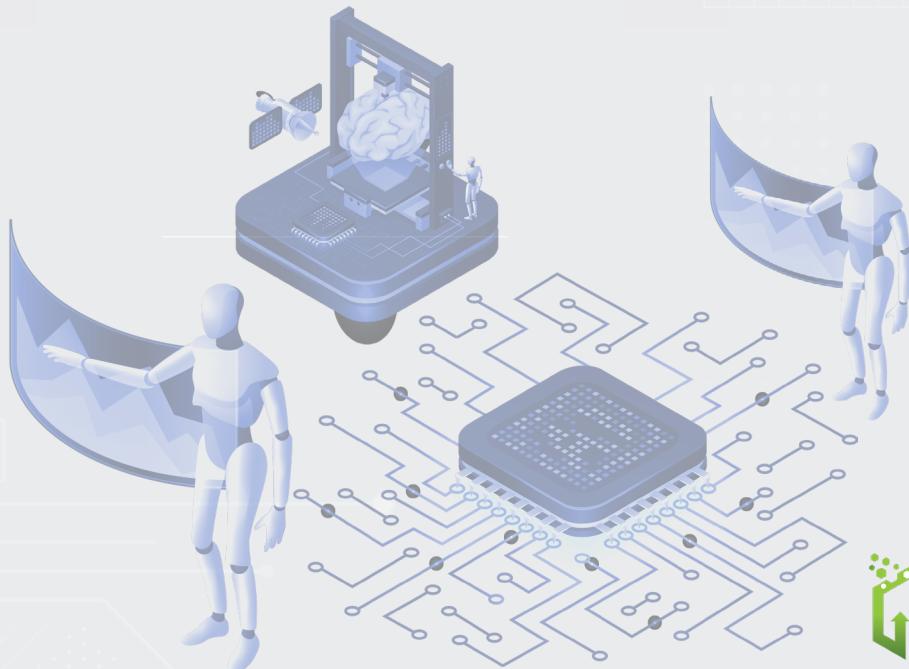

Specify who your target audience is, so your AI content will be more applicable to these specific humans.

Prompt

My target audience has the following characteristics:

1. *[insert demographic information]*
2. *[insert tone preferences]*
3. *[insert reading level preference]*

Please stick to the above when creating content titled *[insert title]* at *[word count]* words.
